

# FAST BREAK

Join us for this week's Fast Break activity - you can print it or screenshot this and play from your device. To submit your completed activity, scan the QR Code below or click the link in the Connection. Individuals who submit a completed Fast Break Activity will be entered in to the Attitude of Gratitude prize drawings.

## Pet Logic Puzzle

Three friends, two of whom have a pet, live in the same street. From this information and the following clues, for each friend, can you determine who lives in which house, their age, and who has and who does not have a pet?

1. Neither girl lives in the odd-numbered house.
2. The spaniel does not live at number 24, nor with Sammy.
3. Sarah, who is not the oldest, lives furthest from number 15.
4. The girl whose age and house number match does not have a pet.

		Address			Age			Pet		
		No. 15	No. 24	No. 30	23	24	26	Spaniel	No Pet	Terrier
Name	Sally									
	Sammy									
	Sarah									
Pet	Spaniel									
	No Pet									
	Terrier									
Age	23									
	24									
	26									

  

		Address	Age	Pet
Sally				
Sammy				
Sarah
